Step 1: Attach mounting bracket to wall using #6 screws (supplied).

Step 2: Connect the wires. Circuit must be properly fused.

Step 3: Position the fixture on the mounting bracket. Note the 4 tabs on the inside of the fixture must drop into openings in mounting plate.

Step 4: While pushing fixture against mounting bracket, turn fixture clockwise until rigid resistance is encountered. Continue to turn past rigid resistance, and fixture will snap into place. Verify that the light is properly installed by rotating it counter clockwise about 1 full turn until the anti-rotation stop is encountered. The light should remain firmly installed. The anti-rotation stop will allow almost full rotation of the light, but will prevent the power wires from becoming twisted.

Limited Warranty

Lumitec is not responsible for product failure caused by abuse, neglect, improper installation, or failure in applications other than those for which it was designed, intended, and marketed.

This product is warranted to be free from defects in workmanship and materials for a period of one year from the date of original purchase. Should your Lumitec product prove defective during the warranty period promptly notify Lumitec and return product with freight prepaid. Lumitec will, at its option, repair or replace the product without charge for parts or labor, or refund purchase price. Products repaired or replaced under this warranty shall be warranted for the unexpired portion of the warranty applying to the original product(s). Lumitec is not responsible for product failure caused by abuse, neglect, improper installation, or failure in applications other than those for which it was designed, intended, and marketed. No warranty or affirmation of fact, express or implied, other than as set forth in the limited warranty statement above is made or authorized by Lumitec. Any liability for consequential and incidental damages is expressly disclaimed. Lumitec liability in all events is limited to, and shall not exceed, the purchase price paid.
